

Objective: Create a very short list of food items for breakfast

===== Task

Breakdown =====

Task 1: Prompt: Here is the next sub-task prompt:

Generate a list of 5 common and easy to prepare breakfast food items. The list should include both sweet and savory options. For each item, include the name of the dish only, without any additional details or instructions. Format the list with each food item on its own line. Result: Here is a list of 5 common and easy to prepare breakfast food items, including both sweet and savory options, with each item on its own line:

Toast Oatmeal Scrambled Eggs Pancakes Avocado Toast

===== Refined

Final Output =====

Here is the refined breakfast food list:

Toast Oatmeal Scrambled Eggs Pancakes Avocado Toast

This short list provides a variety of common, easy to prepare breakfast items including both sweet and savory options.

Since this is a simple food list and not a coding project, no project name, folder structure, or code files are needed.
