

Hi! Happy to help translate the Hindi text into Hindi Roman font. However, you haven't actually provided the Hindi text yet for me to translate. Could you please send over the Hindi text or PDF that you need translated into Roman Hindi? I'll wait for you to provide that, and then I can get started on the translation. Just to clarify - you want the entire text in Roman Hindi only, with no English left, correct? Please confirm and send the Hindi whenever you're ready!
