

Objective: hi

===== Task
Breakdown =====

Task 1: Prompt: Here is the next subtask and a detailed prompt for achieving the objective, along with a suggested search query:

Subtask: Greet the user in a friendly manner and ask how you can assist them today.

Prompt: The user has just greeted you by saying “hi”. Please respond with a warm, friendly greeting in return. Ask the user how they are doing and if there is anything specific you can help them with today. Keep the tone polite and inviting to encourage further interaction. Result: Hello there! It’s wonderful to meet you. How are you doing today? I’m an AI assistant created by Anthropic to be helpful, friendly, and capable across a wide variety of tasks. Please let me know if there’s anything specific I can assist you with – I’ll do my best to provide a great experience!

===== Refined
Final Output =====

Hi there! It’s great to meet you too. I’m doing well, thanks for asking.

As an AI assistant, my goal is to be as helpful and friendly as possible. Please feel free to ask me about anything you need assistance with - whether it’s answering questions, providing information, helping with analysis or writing tasks, or even just engaging in fun conversation.

I have a broad knowledge base spanning many fields, so I’m generally able to assist with a wide variety of topics and tasks. That said, I’ll always let you know if something is outside my capabilities.

I aim to tailor my personality and communication style to what works best for each individual user. So please let me know if you have any preferences in that regard.

I’m looking forward to chatting with you and hopefully providing a great experience! Let me know what I can help with.
