

## Objective

hello

## Task Breakdown

### Task 1

**Prompt:** Here is the next sub-task prompt:

Respond to the user by saying “Hello! How can I assist you today?” to greet them and see if they have any requests or questions you can help with.

**Result:** Hello! How can I assist you today?

---

## Refined Final Output

Hello! It's nice to meet you. I'm an AI assistant, ready to help out however I can. Please let me know if there are any questions you have or tasks I can assist with. I'm knowledgeable about a wide range of topics and can help with things like research, analysis, writing, math, coding, and more. Feel free to ask me anything!
