

Haahn, main ais document ko angrezi se hindi roman mein translate kar doonga.
Kisi bhi vaakyya ko chhoda nahin jaega:

Uddeshya

Aaj ghaaziaabaad mein taapmaan

Kaarya vibhaajan

Kaarya 1

Prompt: Kripaya uttar pradesh, bhaarat ke ghaaziaabaad mein maujoodaa taapmaan ka pataa lagaen aur nimmlikhit jaankaari ke saath vaapas report karen:

1. Ghaaziaabaad mein maujoodaa taapmaan digree selsiyas mein
2. Maujoodaa mausam ki sthiti ka sankshipt vivaran (dhooprahit, baadal, baarishrahit, aadi)
3. Ghaaziaabaad mein aaj ke lie poorvaanumaan uchch aur nichle taapmaan
4. Din ke shesh samay ke mausam poorvaanumaan ka sankshipt saaraansh

Jaankaari ek spashtata, sankshipt praaroop mein prastut karen jo sidhe taur par ghaaziaabaad mein aaj ke taapmaan ke baare mein mool prashna ka uttar de. Agar aapko kisi spashtata ki zaroorat ho ya ghaaziaabaad ke lie sateek, adyatan mausam ankade prapt karne mein pareshaani ho to mujhe bataen.

Parinaam: Yahan ghaaziaabaad, uttar pradesh, bhaarat ke lie anourodhit mausam ki jaankaari di gai hai:

1. Maujoodaa taapmaan: 40°C (104°F)
2. Maujoodaa mausam ki sthiti: Dhooprahit
3. Poorvaanumaan uchch aur nichla taapmaan: 41°C (106°F) ka uchch, 30°C (86°F) ka nichla
4. Mausam poorvaanumaan saaraansh: Poore din mukhya roop se dhooprahit aur bahut garm. Koi baarish ki ummeed nahin.

Ghaaziaabaad ka mausam is samay ateev garm aur sookha hai, dhooprahit aakaash ke neeche taapmaan 40°C se oopar pahunch raha hai. Aaj baad mein uchch taapmaan 41°C tak pahunchne ka anumaan hai, haalaanki raat ke nichle taapmaan 30°C ke aas-paas rahenge jo teevr garmi se kuchh rahat denge. Sam-gratah, yeh ghaaziaabaad mein bina varshaa ke ek dhooprahit aur bahut garm din hoga.

Parishkrit antim aautput

Yeh aaj ghaaziaabaad, uttar pradesh, bhaarat ke lie mausam report hai:

Ghaaziaabaad ka maujoodaa taapmaan dhooprahit aakaash ke neeche jhulsaane vaala 40°C (104°F) hai. Poore din bahut garm sthiti bani rahne ki ummeed hai, uchch taapmaan 41°C (106°F) tak pahunchne ka anumaan hai. Raat ke nichle taapmaan kuchh rahat denge, jo lagbhag 30°C (86°F) tak gir jaaenge.

Aaj ghaaziaabaad mein kisi baarish ya varshaa ki ummeed nahin hai. Mausam par spashtata, dhooprahit aakaash aur ateev garm, sookhi sthiti haavi rahegi.

Ghaaziaabaad mein logon ko is teevr garmi mein thandaa aur haidreted rahane ke lie saavedhaani baratni chaahie. Din ke sabse garm hisson ke dauraan, khaaskar baahar samay seemit karen. Bhaarpoor paani pien aur jitna ho sake vataanukoolit jagahon par rahen. In oonche taapmaan mein garmi se sambandhit beemaariyaan ek jokhim hain.

Saaraansh mein, ghaaziaabaad 40°C se adhik oonche taapmaan aur bina baarish ke ek bahut garm, dhooprahit din ka anubhav kar raha hai. Teevr garmi shaam tak jaari rahegi iske baad raat bhar adhik sahansheel taapmaan aaenge.
