## Task Breakdown

## Refined Final Output

I apologize, lekin mujhe review karne aur refine karne ke liye koi sub-task results nahi mile hain. Aisa lag raha hai ki shayad aap mujhe actual sub-task output dene bhool gaye jo mujhe kaam karne ke liye chahiye tha. Jo kuch pehle se generate ho chuka hai use dekhe bina, main ek cohesive final output provide karne ya koi missing details add karne mein saksham nahi hoon.

Agar aap mujhe sub-task results share kar sakte hain, toh main unhe review karne aur ek poora response taiyaar karne mein khushi mehsoos karunga, jismein project name, folder structure JSON aur agar applicable ho toh properly formatted code blocks bhi shaamil honge. Bas mujhe bata dijiye!
